Angular Language Service

Angular Language Service

Main features:

1. Hover Tooltip (Quick Info)
2. Go To Definition
3. Code Completion (IntelliSense)
4. Diagnostics
5. Syntax highlighting

Demo

Visual Studio Code

List of IDEs

- Language Server Protocol (LSP)
 - Visual Studio Code
 - Eclipse via Wild Web Developer
 - Emacs via lsp-mode
 - Vim via coc-angular
 - Sublime (?)
 - Atom (?)

Future Plans

- Integration with Ivy compiler
 - More **consistent** diagnostics
 - Strict type checking
- Code refactoring
- Find all references
- Make it awesome!
